1 An Internet-based negotiation server for e-commerce   ■
Stanley Y.W. Su, Chunbo Huang, Joachim Hammer, Yihua Huang, Haifei Li, Liu Wang, Youzhong
Liu, Charnyote Pluempitiwiriyawej, Minsoo Lee, Herman Lam
August 2001 **The VLDB Journal — The International Journal on Very Large Data Bases**,
Volume 10 Issue 1
Publisher: Springer-Verlag New York, Inc.
Full text available: 📄 pdf(355.19 KB)   Additional Information: full citation, abstract, citings, index terms

This paper describes the design and implementation of a replicable, Internet-based
negotiation server for conducting bargaining-type negotiations between enterprises involved
in e-commerce and e-business. Enterprises can be buyers and sellers of products/services or
participants of a complex supply chain engaged in purchasing, planning, and scheduling.
Multiple copies of our server can be installed to complement the services of Web servers.
Each enterprise can install or select a trusted negotia ...

Keywords: Constraint evaluation, Cost- benefit analysis, Database, E-commerce,
Negotiation policy and strategy, Negotiation protocol

1   Interactive graphics for schematic editing, a working tool

M. D. Mancusi, J. C. Wild

June 1972 **Proceedings of the 9th workshop on Design automation DAC '72**

Publisher: ACM Press

Full text available: 📄 pdf(381.46 KB)   Additional Information: full citation, abstract, references, citings, index terms

LOGIGRAF, an interactive graphics program to lay out and edit schematic drawings, is now being used in a production environment at Bell Telephone Laboratories. The program runs on a GRAPHIC-211 graphics terminal (fig.1) which consists of a Digital Equipment Corporation PDP-15 computer with 8K of memory, secondary storage disk, card reader, 9 track tape, display processor, refreshed 21 inch CRT display, keyboard, light pen, function buttons, storage CRT, and hard copy u ...

SEARCH

Nothing Found

Your search for **+abstract:replicate +abstract:production +abstract:data +abstract:shadow +abstract:data** did not return any results.

You may want to try an Advanced Search for additional options.

Please review the Quick Tips below or for more information see the Search Tips.

Quick Tips

- Enter your search terms in lower case with a space between the terms.

        sales offices

    You can also enter a full question or concept in plain language.

        Where are the sales offices?

- Capitalize proper nouns to search for specific people, places, or products.

        John Colter, Netscape Navigator

- Enclose a phrase in double quotes to search for that exact phrase.

        "museum of natural history" "museum of modern art"

- Narrow your searches by using a + if a search term must appear on a page.

        museum +art

- Exclude pages by using a - if a search term must not appear on a page.

        museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.
